

## 3 Officers in Chicago Raid On Panthers Are Reassigned

CHICAGO, May 22 (UPI)—Cook County State's Attorney Edward V. Hanrahan today announced a major revamping of his officers' "procedures" and had three members of his department who took part in a controversial raid on a Black Panther apartment have been reassigned to other duties.

Hanrahan said federal agents will be invited for the planning and participation in future searches by his po-

lice unit for illegal weapons. Hanrahan announced the changes in his first public comment on a report by a federal grand jury which scored his police force for giving conflicting testimony.

The grand jury conducted a four-month investigation of the Dec. 4 raid which left Black Panther leaders Mark Clark and Fred Hampton dead with bullet wounds. It concluded more than 85 shots

were fired by police in the raid and only one by the Panthers.

Hanrahan said he has no plans to resign.

"Not one word of the grand jury report has criticized me personally," he said.

The federal grand jury found that neither Hampton nor Clark was assassinated, Hanrahan said, and "that no one violated anyone's civil rights."
